ABOUT ME IN FEW WORDS

A few months ago, I defended my master's degree in computer science. Currently, I'm seeking opportunities that align with my professional aspirations. Research provided during my academic life was focused on evaluating and verifying the effectiveness of existing artificial intelligence models available in the Keras open-source library. Skills that I've obtained during studies include such languages as Python, SQL, Java, C#, and more.

HARD SKILLS

Python (Programming Language) • Django • Pandas • Git • SQL • Java • HTML5 • CSS • JavaScript • UML • Photoshop • Illustrator • WordPress • OOP • PHP • C# • Angular • Microsoft Excel Macros • GitHub • MySQL • PostgreSQL • gOOGLEbIGqUERY • Data visualization • Quantitative Analytics • Machine Learning • Predictive Modeling • Hypothesis Testing • Data Analysis
